IDENTIFIERS Alaska; *University of Alaska

ABSTRACT

The 1987 edition of the statistical abstract for the University of Alaska System offers data to be used by public officials, institutional administrators, and the Board of Regents in developing university programs and plans. In 1987 the University used its old organizational structure for the last time due to state funding reductions, and this abstract provides a benchmark for measuring some future effects of restructuring the system. Also, 1987 was the last year the university used batch payroll and student records data systems, and the corrections are shown within. The document is made up of data tables and divided into seven sections: (1) enrollments (statistical tables on student credit hours, credit headcount, and enrolled student state and region of origin as well as non-credit and correspondence study activity (1982-1987)); (2) programs and awards (degree/certificate data for the years 1983-1987); (3) faculty and staff (1986 data); (4) facilities and space (library, building inventory, instructional space utilization, student contact hour load, and capacity of residential buildings for 1986); (5) fiscal analysis (data on restricted and unrestricted revenue, direct private gifts, state financial aid, and tuition rates for the years 1983-1987); (6) comparative statistics (data on state funding, administrative salaries, faculty salaries, tuition, and higher education prices for 1987); and (7) special projects (peer campus expenditures, Colorado's faculty allocation model applied to Alaska, and a 6-year plan survey). (SM)

DEDICATION TO SHERMAN CARTER

In 1970, William Ruckelshaus became the first administrator of the United States Environmental Protection Agency. The agency which he led had no experienced staff, no history, and no data base. Out of frustration, it wasn't long before Ruckelshaus called for people who could make decisions without information.

While information science and management systems have come a long way over the past 20 years, every administrator has experienced the frustration expressed by Ruckelshaus. When Sherman Carter came to the University of Alaska in 1978 he found an institution that required immediate attention in the area of fiscal integrity and one sorely lacking in reliable information. With skill and vigor, he brought sound fiscal management to the University and initiated planning for information systems that would provide the basis for well-informed management.

By 1985, FAS, HRIS and SIS were already well-established in the university's lexicon. Today the Financial Accounting Systems, the Human Resource Information System and the Student Information System are poised to provide information which will be vital to the sound management of the University of Alaska over the coming years. This was accomplished in the face of declining resources and the complications of restructuring thanks to the productive work environment and fine staff created and maintained by Sherman Carter, Executive Vice President and Vice President for Finance.

Now, as Sherman Carter leaves the University of Alaska, it is my honor to publicly acknowledge him as a colleague, to thank him for his many contributions, and to dedicate this Statistical Abstract - 1987 to him as a permanent record of the gratitude of the entire university community.

Donald F. Behrend

Executive Vice President & Provost

PREFACE

Introduction

This second annual STATISTICAL ABSTRACT for the University of Alaska System is intended to be factual rather than interpretive in nature for use by the Board of Regents, institutional administrators, and public officials in the development of University plans and programs. FY87 was the last year the University was organized under its old structure before a necessary reorganization was implemented due to extreme and rapid state funding reductions. This abstract therefore serves as a benchmark to measure some of the future effects of restructuring the UA System. Additionally, FY87 was the last year UA utilized batch payroll and student records data systems. A conversion to online computer systems enabled a degree of student and staff data correction opportunities. These corrections, to historical as well as FY87 data, are reflected in this edition. The diagram below defines the major instructional unit abbreviations used. In addition, the following abbreviations are used throughout the abstract: SPS - Statewide Programs and Services; RE - Rural Education; CES - Cooperative Extension Service; FITC - Fisheries Industrial Technology Center; CCREE - Community College and Rural Education and Extension, comprised of CCC, ICC, KPCC, KECC, KOCC, KUCC, MSCC, NWCC, PWSCC, TVCC, RE, CES, and FITC; and MAU - Major Administrative Units, comprised of UAA, UAF, UAJ, ACC, CCREE, and SPS.

Future Inclusions

Assembly of the material presented involved many judgements regarding inclusion, exclusion and form of presentation. Suggestions concerning additions, modifications or corrections to this book are welcomed.

Acknowledgements

The production of the STATISTICAL ABSTRACT would not have been possible without the efforts made by staff at the following University and State offices: Admissions and Records; Institutional Research; Academic Affairs; UACN; Facilities Planning; Accounting; Budget; Finance; UA Libraries; ACPE; DOE; and DOL. Special recognition is given to the extra efforts made by Steve Brown, Wayne Derx, Ann Secrest, Jeannie Phillips, Floyd Burnett, Janet Johnson, Jim Lynch, Helen Burrell, and Michelle Wood.

Source: ISIS Course Registration Schedule Master Files for Fall 1982-86

Table Definitions

FTE	Full-Time Equivalent Student. A hypothetical student who enrolls in 15 undergraduate or 12 graduate credit hours per semester. The FTEs in this table are course-level based (not student-level based) indicators of productivity.
SCH	Student Credit Hour. A unit of measure that represents one student engaged in an activity for which one hour of credit for a degree or other certificate is granted upon successful completion.

FALL '86 Credit Headcount
by Full-Time/Part-Time Status

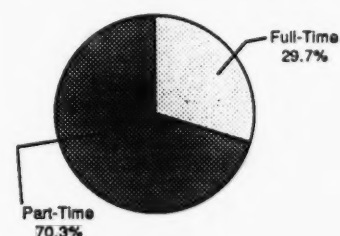

Table Definitions

FIRST-TIME FRESHMEN	Students enrolled in an undergraduate degree or certificate program who are attending a higher education institution for the first time.
FIRST-TIME GRADUATES	Students enrolled in a graduate degree or certificate program for the first time.
FULL-TIME STUDENTS	Undergraduates or special student undergraduates taking a course load of 15 or more student credit hours or graduate students taking a course load of 12 or more student credit hours in a semester.
GRADUATE STUDENTS	Students enrolled in graduate degree or certificate programs.
PART-TIME STUDENTS	Undergraduates or special students undergraduate taking less than a course load of 15 student credit hours or graduate students taking less than a course load of 12 student credit hours in a semester.
NON-DEGREE SEEKING STUDENTS	Students not enrolled in any degree or certificate program or who are not degree-seeking students with an undeclared major. Also referred to as "Special" students.
UNDERGRADUATES	Students enrolled in undergraduate degree or certificate programs.

Table Definitions

FIRST-TIME FRESHMEN	Students enrolled in an undergraduate degree or certificate program who are attending a higher education institution for the first time.
FIRST-TIME GRADUATES	Students enrolled in a graduate degree or certificate program for the first time.
GRADUATE STUDENTS	Students enrolled in graduate degree or certificate programs.
NON-DEGREE SEEKING STUDENTS	Students not enrolled in any degree or certificate program or who are not degree-seeking students with an undeclared major. Also referred to as "Special" students.
RESIDENT STUDENTS	Students defined as residents for the purposes of tuition charges.
UNDERGRADUATES	Students enrolled in undergraduate degree or certificate programs.

Distribution of Non-Alaskans

Ten Most Cited States (non-Alaskan)

Distribution by USA Region (non-Alaskan, non-Foreign)

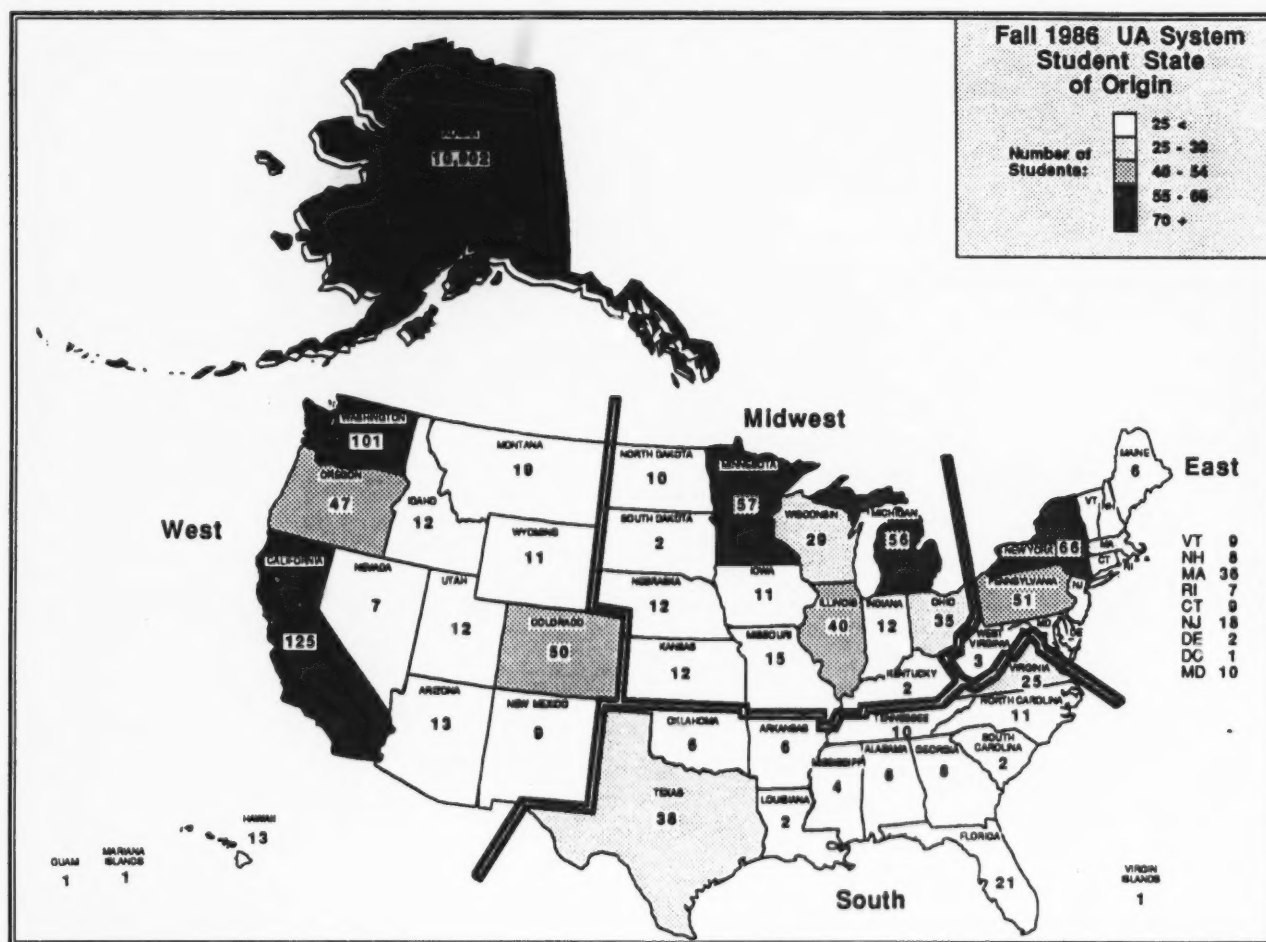

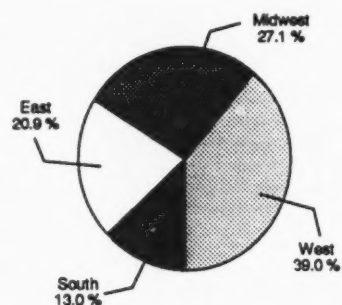

Table Definitions

STUDENT: STATE OF ORIGIN

For all Fall 1986 students enrolled in credit/developmental credit courses who are not exclusively auditing all their courses, this is the residency of the student at the time the student applied for admission or first enrolled at a UA institution.

UNRPT (UNREPORTED)

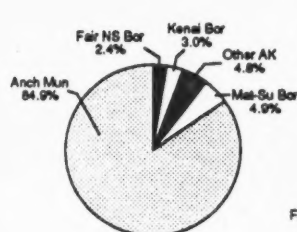

Data were not recorded by the campus and reported to Statewide. Applied to either the student's state/country of residence at the time of application to the institution or to their sex data fields.

Table Definitions

REAA

REAA or Borough school districts are as defined by the State of Alaska Department of Transportation & Public Facilities in cooperation with the State of Alaska Department of Education, 1985. City School Districts and small REAAs are included within the larger REAA or Borough district in which they are located. The Aleutian Chain REAA includes King Cove, Sand Point and Unalaska. The Bering Strait REAA includes Nome; Chatham REAA includes Hoonah, Pelican and Yakutat; Chugach REAA includes Cordova and Valdez; Haines Borough includes Skagway; Lower Kuskokwim REAA includes the Yupik REAA; Lower Yukon REAA includes Kashunamiut and Saint Mary's; Southeast Islands REAA includes Craig, Hyda'ung, Kake, Klawock, Petersburg and Wrangell; Southwest REAA includes Dillingham; and the Yukon Koyukuk REAA includes Galena, Nerana and Tanana.

REGION OF ORIGIN

For all Fall 1986 students enrolled in credit/developmental credit courses who are not exclusively auditing all their courses, this is the Alaskan REAA/Borough region the student resided in at the time the student applied for admission or first enrolled at a UA institution.

FY87 Non-Credit Course Activity Distribution

FY83-87 Non-Credit Course Activity Trends

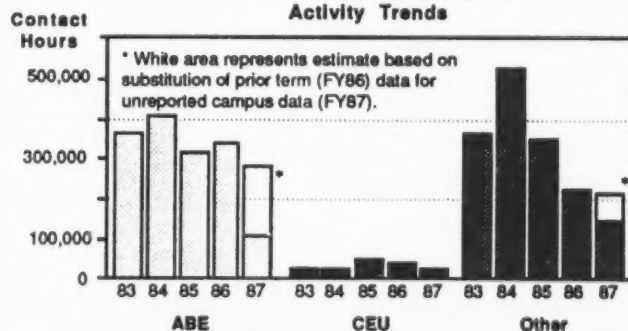

Table Definitions

FISCAL YEAR EQUATED STUDENT (FYES)	For non-credit courses, the quotient: (total student credit hour equivalents for a fiscal year) / 34.
STUDENT CONTACT HOURS	The product: (number of students enrolled) x (hours of non-credit class or activity per week) x (number of weeks the class runs).
STUDENT CREDIT HOUR EQUIVALENT	For non-credit courses, the quotient: (number of student contact hours) / 30.

Table Definitions

CERTIFICATE PROGRAM	1 YEAR <	A certificate less than one year in duration requiring less than 30 semester credit hours for completion.
	> 1 YEAR	A certificate one year but less than two years in duration requiring 30 or more semester credit hours for completion.
PROGRAM		A field of study defined by CIP (Classification of Instructional Programs) code, major, and degree type.

NOTE: Table statistics are based on the number of degrees/certificates awarded, not the number of individuals who received degrees/certificates. For example, in FY87 2,069 degrees/certificates were awarded to 1,897 students. Tables 2.2-2.5 report on the 2,069 awards earned in FY87. Source: Campus G-1 Forms

FY87 Awards by Program Area

FY87 Awards by MAU

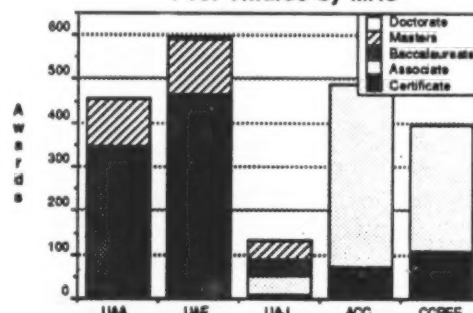

Table Definitions

FISCAL YEAR
(FY)

A twelve month period of time starting each July 1 comprised of a summer session, fall and spring semesters.

INDICES

Ratio of current year to base year measurement.

Table Definitions

CT1, CT2

CT1 - a certificate less than one year in duration requiring less than 30 semester credit hours for completion.

CT2 - a certificate one year but less than two years in duration requiring 30 or more semester credit hours.

PROGRAM

A field of study defined by CIP code, major, and degree type.

Table Definitions

ADMINISTRATIVE STAFF	Full-time employees whose assignments require primary (and major) responsibility for management of the institution, or a customarily recognized department or subdivision thereof. Included are the President, Chancellors, Vice Presidents, Vice Chancellors, Deans and other officers of academic departments whose principal activity is administrative in nature. Supervisory personnel of the Technical, Clerical, Skilled Craft, and Maintenance forces are reported within those specific categories.
INSTRUCTIONAL FACULTY	Full-time employees whose primary assignments customarily are made for the purpose of conducting instruction as a principal activity and may also include research and public service as additional activities.
RESEARCH FACULTY	Full-time employees whose primary assignments customarily are made for the purpose of conducting research as a principal activity. Public service and instruction may be performed as additional activities.
PROFESSIONAL STAFF	Full-time employees whose assignments require either college graduation or experience of such kind and amount as to provide a comparable background, and who are not included in the Administrative, Faculty, Clerical, Technical, Skilled Crafts, or Maintenance categories.
CLERICAL STAFF	Full-time employees whose assignments typically are associated with clerical activities or are specifically of a secretarial nature.
TECHNICAL STAFF	Full-time employees whose assignments require specialized knowledge or skills which may be acquired through experience or academic work such as is offered in many 2-year technical institutes, junior colleges or through equivalent on-the-job training.
SKILLED CRAFTS STAFF	Full-time employees whose assignments typically require special manual skills and a thorough and comprehensive knowledge of the processes involved in the work, acquired through on-the-job training and experience or through apprenticeship or other formal training programs.
MAINTENANCE STAFF	Full-time employees whose duties result in or contribute to the comfort, convenience and hygiene of personnel and the student body or which contribute to the upkeep and care of buildings, facilities or grounds of the institutional property.

Fall 1986 Instructional Faculty Distribution by Rank Within MAU

Fall 1986 Research Faculty Distribution by Rank Within MAU

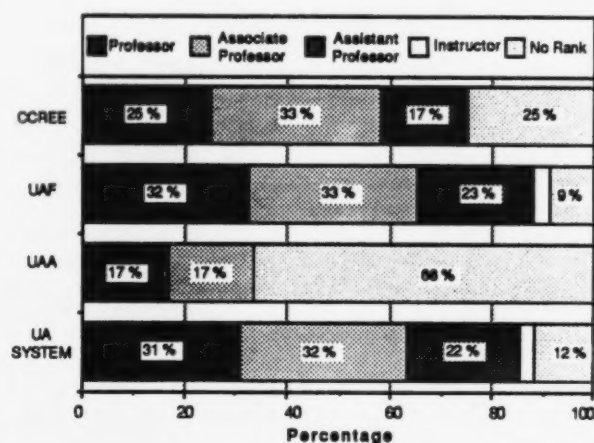

Table Definitions

INSTRUCTIONAL FACULTY	Full-time employees whose primary assignments customarily are made for the purpose of conducting instruction as a principal activity and may also include public service and research as additional activities.
NON-TENURED INSTRUCTIONAL FACULTY	Full-time instructional faculty (regardless of funding source) whose coding on the payroll file indicates they do not have tenure.
NON-TENURE TRACK	Positions not eligible for tenure; includes instructors and visiting appointments.
RESEARCH FACULTY	Full-time employees whose primary assignments customarily are made for the purpose of conducting research as a principal activity. Public service and instruction may be performed as additional activities.

Table Definitions

INSTRUCTIONAL FACULTY	Full-time instructional faculty (regardless of funding source).
TENURED FACULTY	Faculty whose coding on the payroll file indicates they are tenured.
NON-TENURED FACULTY	Faculty whose coding on the payroll file indicates they do not have tenure.

Table Definitions

SCH	Student Credit Hour. A unit of measure that represents one student engaged in an activity for which one hour of credit for a degree or other certificate is granted upon successful completion.
STUDENT FTE	Full-time Equivalent Student. A hypothetical student who enrolls in 15 undergraduate or 12 graduate credit hours per semester. The student FTEs in this table are course-based, not student-level based indicators of productivity.
FACULTY FTE	Faculty Full-Time Equivalent. Equals 1 for each faculty member with a primary assignment in instruction (adjusted for length of assignment), and equals 15 course credit hours taught for all other instructors.
SFR	Student Faculty Ratio. The student FTEs divided by the faculty FTEs.
SFR DEPT, SCHOOL, OR UNIT INDEX	A ratio of the specific SFR relative to the SFR for the appropriate department, school, or unit. For example: the UAA Lower Division Chemistry SFR divided by the UAA College of Arts and Sciences Lower Division SFR equals its SFR School Index.
LOWER AND UPPER DIVISION, GRADUATE	Categories as defined by course number-- see TABLE 1.1 for specific definitions. Developmental credits are incorporated in the Lower Division category on this table.

Table Definitions

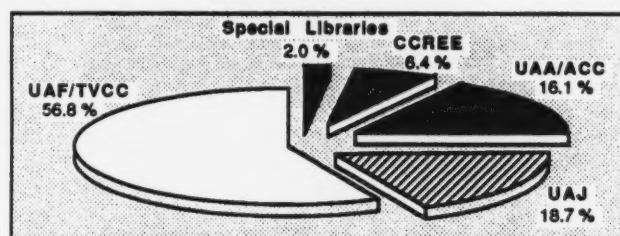

CCREE LIBRARIES	The community college libraries other than Learning Resource Centers. They are located at Chukchi Community College (CCC), Islands Community College (ICC), Kenai Peninsula Community College (KPCC), Ketchikan Community College (KECC), Kodiak Community College (KOCC), Kuskokwim Community College (KUCC), Matanuska-Susitna Community College (MSCC), Northwest Community College (NWCC), and Prince William Sound Community College (PWSCC).
FULL-TIME EQUIVALENT (FTE) STAFF	The number of full-time staff plus the number of full-time equivalent part-time staff.
SPECIAL LIBRARIES	Libraries that serve very specific clientele. They include the Arctic Environmental Information and Data Center (AEIDC), the Agricultural and Forestry Experiment Station, the Geophysical Institute, the Institute of Arctic Biology and Wildlife, and the University of Alaska Instructional Telecommunications (UAITS)/Center for Instructional Television. The Institute of Marine Sciences Library was merged with the UAF Library on July 1, 1986.
TOTAL LIBRARY ACQUISITIONS	The sum of Volumes, Microforms, Manuscripts and Archives, Cartographic Materials, Audio/Film/Video, and the Other library acquisitions categories.
TOTAL LIBRARY HOLDINGS	The sum of Volumes, Microforms, Manuscripts and Archives, Cartographic Materials, Audio/Film/Video, and the Other library holdings categories.

NOTE: This table contains only data on those buildings inventoried by May 1987. FP&C inventoried the instructional space first and are now inventorying the remaining buildings. Space use is constantly changing so it is possible for the NUSF reported here to vary by a small amount with Table 4.4.

An 'na' means data are not available.

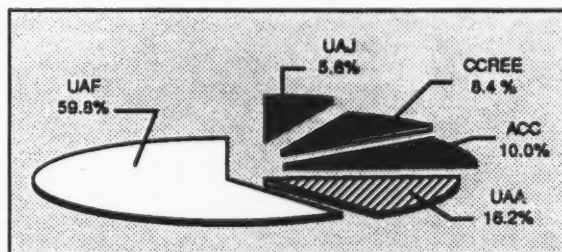

(1) This building is an addition to the building on the previous line and some of its data is included in the line above. Replacement costs are averaged.

(2) Replacement costs are not broken down for Housing Units 1-6 and are averaged over all units.

(3) The Utility Building is an addition to the Administration Building and its replacement data is included there. The replacement data is averaged.

NOTE: This table contains only data on those buildings inventoried by May 1987. FPAC inventoried the instructional space first and are now inventorying the remaining buildings. Space use is constantly changing so it is possible for the NUSF reported here to vary by a small amount with Table 4.4.

An "na" means data are not available.

(7) Some of the data for the AHRC wings are reported with the data for the main section of AHRC. Replacement data is averaged.

(8) Irving-B replacement costs are combined with Irving replacement costs and are averaged.

Table Definitions

INSITE	Institutional Space Inventory Techniques. Software package used to manage the UA facilities data base.
CLASSROOMS	Includes class service rooms and lecture halls.
INSTRUCTION LABS	Includes art studios, darkrooms, drafting rooms, music practice, and teaching labs.
RESEARCH LABS	Includes lab-offices and lab-service rooms.
OFFICES	Includes conference rooms, private circulation areas, and vaults.
STUDY	Includes library processing rooms, stacks, and stack/reading rooms.
SPECIAL USE	Includes audio/visual facilities, animal quarters, locker and shower rooms, athletic facilities, greenhouses, non-medical clinics, and other special use rooms.
GENERAL USE	Includes assembly halls, coat rooms, dining halls, exhibit facilities, non-athletic locker rooms, kitchen facilities, merchandising rooms, multi-purpose rooms, music listening rooms, and recreational facilities.
SUPPORT	Includes central laundries, data processing facilities, mail rooms, maintenance shops, print shops, receiving rooms, and storage facilities.
HEALTH CARE	Includes health care service rooms, nurses stations, patient service rooms, public waiting rooms, supplies, surgery, and treatment rooms.
RESIDENTIAL	Includes dormitories, apartments, and single-family residences.
UNCLASSIFIED	Areas undergoing conversion at the time of inventory.
INSTRN/RSRCH LABS	Instruction Laboratories and Research Laboratories
NON-ASSIGNABLE	Circulation, mechanical, and custodial areas.
NUSF	Net Usable Square Feet.

NOTE: This table contains only data on those buildings inventoried by Fall 1986. FP&C inventoried the instructional space first and are now inventorying the remaining buildings. Space use is constantly changing so it is possible for the NUSF reported here to vary by a small amount with Table 4.3. An "na" means data are not available.

NOTE: This table contains only data on those buildings inventoried by Fall 1986. FP&C inventoried the instructional space first and are now inventorying the remaining buildings. Space use is constantly changing so it is possible for the NUSF reported here to vary by a small amount with Table 4.3. An 'na' means data are not available.

Table Definitions

CLASSROOMS	Regularly scheduled rooms for general purpose instruction not requiring special-purpose equipment for student use.
LABS	Regularly scheduled instructional space containing specialized equipment that limits the room's use.
STUDENT STATION	The average space required to provide instruction to one student. Station size varies by type of station and includes both circulation space and instructor space.

NOTE: Occupancy rates greater than 1.000 mean that extra chairs have been put in the room to fit in a few extra people. This happens frequently with labs until demand grows to expand or build a new lab. Occasionally, this happens with classrooms. The rates for UAA and ACC are inflated due to restrictions made by the Anchorage Fire Marshall. He recently relaxed these restrictions and next year their rates will drop slightly because more student stations will be allowed. The optimum rate for classrooms is 0.600 and for labs is 0.800.

Table Definitions

TOTAL ROOM CONTACT HOURS	The total number of hours per week a room is regularly scheduled for use
AVERAGE HOURS USED/WEEK	Total Room Contact Hours/Number of Rooms.
STUDENT STATION	The average space required to provide instruction to one student. Station size varies by type of station and includes both circulation space and instructor space.
TOTAL STUDENT CONTACT HOURS	The total number of student instruction hours per week in regularly scheduled rooms.
DAY/NIGHT STUDENT CONTACT HOURS	Student contact hours which fall between 7:30 a.m. and 5:00 p.m. are Day Hours and those which occur after 5:00 p.m. are Night Hours. Both are weekly totals.
STATION OCCUPANCY RATE	Total Student Contact Hours/[(Number of Student Stations)(Avg Hours Used/Wk)]
AVERAGE ROOM OCCUPANCY	Total Student Contact Hours/Total Room Contact Hours.
CLASSROOM	Regularly scheduled rooms for general purpose instruction not requiring special-purpose equipment for student use.
LABS/SHOPS	Regularly scheduled instructional space containing specialized equipment that limits the room's use.
INSITE	Instructional Space Inventory Techniques. Software package used to manage the UA facilities data base.

Table Definitions

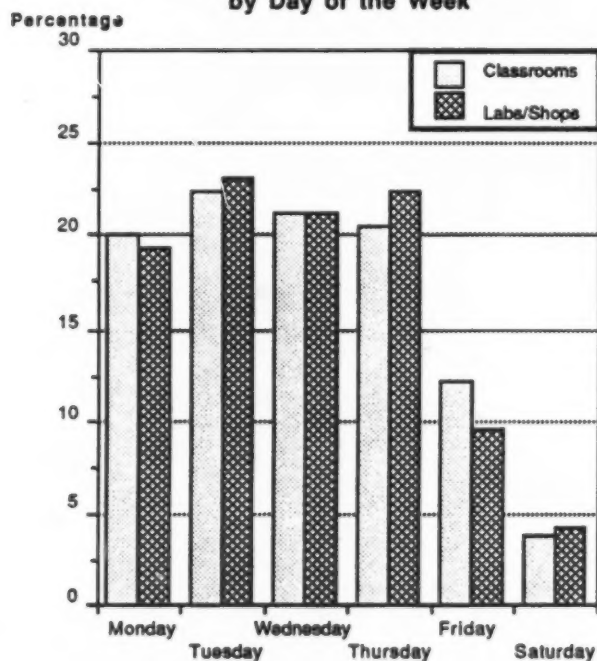

CLASSROOMS	Regularly scheduled rooms for general purpose instruction not requiring special-purpose equipment for student use.		
DAYTIME/EVENING CLASS	Any class that begins after 7:30 a.m. and before 5:00 p.m. is a daytime class. Any class that begins at or after 5:00 p.m. is an evening class.		
GUIDELINE	A University space utilization guideline adopted by the Board of Regents as a reference measure for optimum usage under optimum conditions:		
		In Classrooms	In Labs/Shops
	Total Available Hours of Instruction/Day	45.0	45.0
	Total Available Hours of Instruction/Evening	25.0	25.0
	Optimum Weekly Scheduled Hours/Day	30.0	20.0
	Optimum Weekly Scheduled Hours/Evening	16.7	11.1
	Optimum Weekly Percent Station Utilization/Day & Evening	60%	80%
INSTRUCTIONAL SPACE	Limited to regularly scheduled classrooms and labs/shops.		
LABS/SHOPS	Regularly scheduled instructional space containing specialized equipment that limits the room's use.		
STUDENT STATION	The average space required to provide instruction to one student. Station size varies by type of station and includes both circulation space and instructor space.		
UTILIZATION	Utilization refers to measuring the actual usage (activity level) of an area (room or student station) compared to optimum usage of the area.		
WEEKLY ROOM CONTACT HOURS	The total number of hours per week a room is regularly scheduled for use.

Distribution of Weekly Room Contact Hours for Classrooms

Distribution of Weekly Room Contact Hours for Labs/Shops

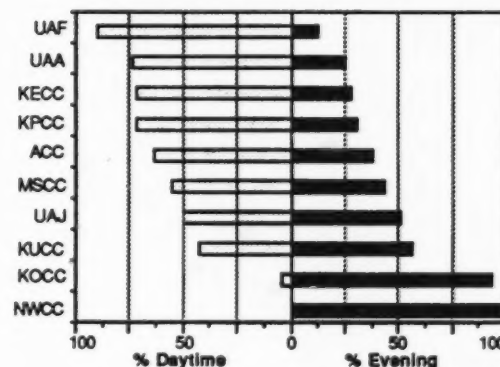

Table Definitions

CLASSROOMS	Regularly scheduled rooms for general purpose instruction not requiring special-purpose equipment for student use.
DAYTIME/EVENING CLASS	Any class that begins after 7:30 a.m. and before 5:00 p.m. is a daytime class. Any class that begins at or after 5:00 p.m. is an evening class.
LABS/SHOPS	Regularly scheduled instructional space containing specialized equipment that limits the room's use.
STUDENT STATION	The average space required to provide instruction to one student. Station size varies by type of station and includes both circulation space and instructor space.
USAGE FACTOR	The product of the Average Weekly Room Hours times the Percent Student Station Utilization adjusted so that a value of 1.00 represents the University's guideline usage.
UTILIZATION	Utilization refers to measuring the actual usage (activity level) of an area (room or student station) compared to optimum usage of the area.

FY87 Unrestricted Current Fund Educational & General Revenue

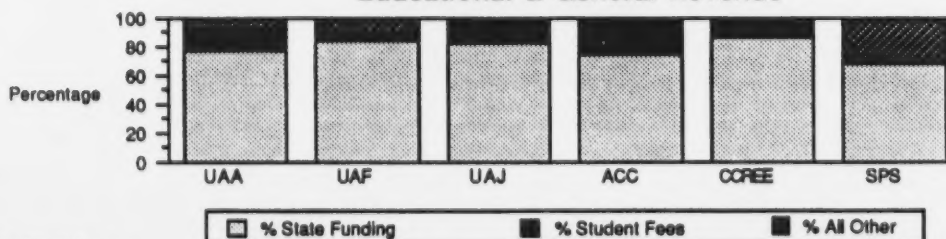

Table Definitions

UNRESTRICTED E & G REVENUE

Represented here is the activity in the Unrestricted Current Funds accounts. These are funds which are to be expended in support of the primary objectives of the university. Education and General Revenue includes Current Funds revenue related to the categories displayed above.

DESIGNATED FUNDS

Current Funds (funds expendable for day-to-day operations) not under State control, identified for a specific purpose.

NOTE: Figures in parentheses are negative.

(1) FY84 Financial Statements included \$603,743 of Library expenditures with Public Service. This amount is included here with Academic Support to make the data comparable for all years.

(2) Includes Designated Funds expenditures (\$1,786,942 for FY87, \$2,552,335 for FY86, \$1,938,727 for FY85, \$3,578,480 for FY84, and \$5,721,133 for FY83) and the use of \$3,799,754 of Working Capital in FY84 to fund accumulated prior years' deficits.

FY87 Unrestricted Current Fund Selected Educational & General Expenditures

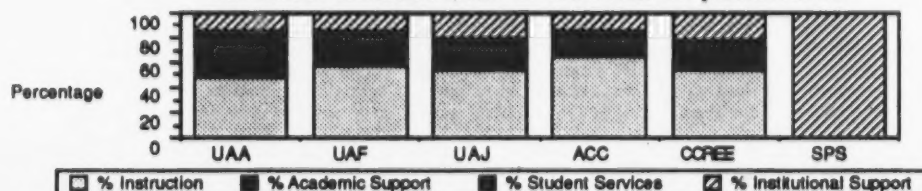

Table Definitions

UNRESTRICTED E & G EXPENDITURES

Represented here is the activity in the Unrestricted Current Funds accounts. These are funds which are to be expended in support of the primary objectives of the university. Education and General Expenditures include Current Funds expenditures related to the categories displayed above.

DESIGNATED FUNDS

Current Funds (funds expendable for day-to-day operations) not under State control, identified for a specific purpose.

TABLE 5.2 FY83-87 Unrestricted Educational and General Expenditures (cont.)

FY87 Restricted Current Fund Revenue

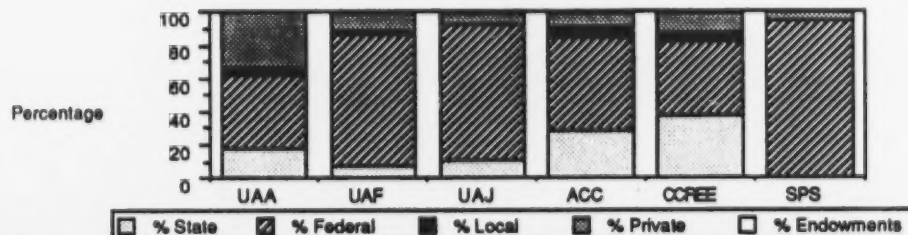

Table Definitions

RESTRICTED CURRENT FUNDS

Funds accepted by the University on the condition that they be used for donor-specified current day-to-day operations. Upon accepting restricted funds, the University is legally bound to use the funds for the specified purpose or to refund them.

UNITED STATES \$1,408 100

#1 RESIDENT STUDENT SOURCE. High school graduates per 1,000 population. This is the primary source of entering freshmen at public institutions in the state and is therefore the best single starting base for deriving total enrollments. The state's primary higher education responsibility is to provide post-secondary educational opportunities to its own resident high school graduates.

#2 ATTENDANCE EXPANSION RATIO. Annual full-time-equivalent enrollment in public institutions of higher education per high school graduate. This ratio measures the degree to which a state provides attractive and accessible opportunities for higher education to both in-state and out-of-state students relative to the size of its resident student source. High ratios indicate states heavily in the "business" of higher education compared to their basic responsibility to high school graduates.

#3 TAX CAPACITY. The potential of state and local governments to obtain revenues for public purposes through various kinds of taxes. Measured by a "representative tax system" that defines the tax capacity of a state and its local governments as the amount of revenue they could raise if all 50 state-local systems applied identical tax rates (national averages) to their respective tax bases.

UNITED STATES 100.0% 100

#4 TAX EFFORT. State and local tax revenue collected as a percentage of state and local tax capacity. Tax effort measures, as a percentage, how much of the state and local government tax capacity is actually used. The tax revenue collected for all states equals total tax capacity nationwide, so that the national effort, by definition, is 100 percent. Effort measures for the individual states indicate how they compare with the national average.

#5 ALLOCATION TO PUBLIC HIGHER EDUCATION 1986-87

	Education (total) approp as a percent of tax revenue	Index
1. North Carolina	13.1 % (16.6)	161

#5 ALLOCATION TO PUBLIC HIGHER EDUCATION. State and local tax revenue appropriated or levied for current operating educational expenses of public institutions. This ratio suggests the relative importance and requirements of financing public student education to the funding of other public services in the state and local government budgets. The ratio for total appropriations is shown in ().

#6 TUITION FACTOR 1986-87

	Tuition as percent of approp + tuft Percent	Index

#6 TUITION FACTOR. Ratio of state and local government education appropriations plus student tuition revenue to state and local government education appropriations. This ratio suggests the relative importance of student tuition as a funding source compared to state-local appropriations. High ratios may reflect a large proportion of out-of-state students paying high non-resident tuition.

EDUCATION APPROPRIATIONS PER STUDENT. State and local tax revenue appropriated for current operating educational expenses of public institutions per annual FTE student. Indicates average state support to individual students without taking into account the types of institutions attended. The ratio of educ. approp's/student to tax capacity/capita indicates a state's funding achievement relative to potential ability to pay. Appropriations for research, agriculture, and medical are reported as a percent of total approp's to suggest relative importance, and per capita as a need measure.

UNITED STATES 10.6 % 100

COLLECTIVE FINANCIAL ACTIONS. The combined actions are the factors that establish the degree to which the potential tax revenues per student are actually utilized to achieve the support level provided. States with a very high percentage are making a substantial combined tax effort, allocation to education, and tuition charge to finance public institutions.

TABLE 6.2 FY87 State Appropriations for H.Ed. Operating Expenses

	FY85 (\$x1,000)	FY87 (\$x1,000)	Percentage Change	(cont.)	FY85 (\$x1,000)	FY87 (\$x1,000)	Percentage Change
1. Maine	\$91,311	\$125,216	37%	26. Kentucky	\$407,906	\$468,955	15%

TABLE 6.3 FY87 Administrative Salary Data by Institution Type

TABLE EXPLANATION: The purpose of CUPA's annual ADMINISTRATIVE COMPENSATION SURVEY is to provide the most current salary data available for college and university administrators. The 1986-87 survey is the tenth year CUPA has conducted this survey on an annual basis. This year's survey focused on reporting data on 99 first-line (primary) positions and 69 second-line (secondary) positions. Selection of surveyed positions was based on an analysis of those positions common to most higher education institutions. In all tables, salaries are those in effect during the Fall of 1986. Salaries are at an annualized, full-time rate; they reflect only actual cash flow earnings, excluding any services contributed without charge. It should be noted that the following salary data are not adjusted for State of Alaska or regional cost-of-living differentials.

SUMMARY OF RESPONDENTS

INSTITUTIONAL CLASSIFICATION	FUNDING SUPPORT		TOTAL
	Public	Private	
Universities	309	146	455
Four-Year Colleges	111	412	523
Two-Year Colleges	409	43	452
Other	87	92	179
TOTAL	916	693	1,609

SUMMARY OF PRIMARY POSITION SALARY INCREASES BY INSTITUTION CLASSIFICATION

INSTITUTIONAL CLASSIFICATION	1985-86 Increase (Decrease)	1986-87 Increase (Decrease)
Universities	6.6 %	4.7 %
Four-Year Colleges	5.6 %	5.6 %
Two-Year Colleges	5.8 %	4.0 %
Two-Year Technical	4.3 %	6.6 %
Other	0.7 %	-

SUMMARY OF PRIMARY POSITION SALARY INCREASES BY JOB FAMILY

JOB FAMILY	1985-86 Increase (Decrease)	1986-87 Increase (Decrease)
Academic Affairs	6.0 %	3.7 %
Administrative Affairs	5.7 %	5.7 %
External Affairs	4.7 %	6.6 %
Student Affairs	5.2 %	3.8 %
Executive Affairs	7.7 %	5.6 %

1986-87 ADMINISTRATIVE COMPENSATION SURVEY.
Washington, D.C.: CUPA, 1987

Table Definitions

MEDIAN	The middle value in an array of all salaries for the position; half of the salaries are lower than the median and half are higher. The median is considered a more reliable measure than the mean/average because it minimizes the effect of extremely high and low salaries.
1st QUANTILE	Divides salaries below the median into two 25 percent segments.
3rd QUANTILE	Divides salaries above the median into two 25 percent segments. The 1st and 3rd quartiles, therefore, mark the interquartile range; half of all salaries -- the middle 50 percent -- fall within this range.

Source: Office of Institutional Research. 1986-87 FACULTY SALARY SURVEY BY DISCIPLINE.
Stillwater: Oklahoma State University, 1987

Table Definitions

FAC MIX PCT	The percent of faculty in a given major field who hold a given academic rank. For example: a FAC MIX PCT factor of .38 for associate professor implies that 38% of the faculty in that major field hold the rank of associate professor.
NEW ASSISTANT PROFESSOR	The grouping of assistant professors who were hired for the first time in the Fall of 1985. All information for this group was included in the ASSISTANT PROFESSOR group for reporting purposes. This group is used mainly for new hiring information.
SALARIES	All salaries which are reported in the survey are based on a 9-10 month academic year salary for institutions belonging to the National Association of State Universities and Land-Grant Colleges (NASULGC). Any compensation for summer academic work, fringe benefits or perquisites is not included in the salary data.
SALARY FACTOR	For a given rank of a given major field the ratio of the mean average salary to the total mean average salary of all institutions. For example: a Salary Factor of 1.10 for assistant professors of mathematics implies that the mean average salary for assistant professor of mathematics is 110% of the mean average salary for all assistant professors of all institutions.
WESTERN STATES	NASULGC institutions in Alaska, Arizona, California, Hawaii, Idaho, Oregon, Montana, Nevada, North Dakota, South Dakota, Utah, Washington, and Wyoming.

TUITION

The total dollar amount paid by a full-time student for a full academic year; usually two semesters, three quarters, or two trimesters.

REQUIRED FEES

The total fees that a majority of full-time students pay in addition to tuition.

Table Definitions

HIGHER EDUCATION PRICE INDEX (HEPI)

A measure of the average changes in prices of goods and services purchased by colleges and universities through current fund educational and general expenditures.

PRICE INDEX

A price index series measures the effects of price change on a fixed group of items from some base year. The change in price index values from year to year may be interpreted as the change in dollars required to offset the effects of inflation in buying the same kind of goods and services previously purchased. The indexes here measure price changes from a designated reference date, or base year (either FY87 or FY71) which was given the index value of 100.0. An index value of 115.0 represents a 15% increase over the base year values.

RESEARCH & DEVELOPMENT PRICE INDEX

A measure of the average changes in prices of goods and services purchased by universities through current direct expenditures for sponsored research. Overhead charges apportioned to research are excluded from the index.

Special Projects Summary

TABLE 7.1 FY86-87 Peer Campus Expenditure Ratio Comparison

TABLE 7.2 Colorado's Faculty Allocation Model Applied to Alaska

TABLE 7.3 Regents / Planning Committee 6-Year Plan Survey

NOTE: This section contains one or two page summaries of research efforts during the 1987 Fiscal Year in which results are highlighted. More detailed information on what is summarized on the succeeding pages is available from Statewide Institutional Research. Inquiries are welcomed.

TABLE 7.1 FY86-87 Peer Campus Expenditure Ratio Comparison

Project Description

This project involved determining a set of peer campuses for the following UA campuses or campus aggregations: 1) UAA, 2) UAF, 3) UAJ, 4) ACC, 5) medium size community colleges - KPCC, MSCC, TVCC, and 6) small size community colleges - ICC, KECC, KOCC, KUCC, NWCC to compare UA campus expenditure patterns with those of their peers.

Methodology

NCHEMS Information Services provided a set of possible peers for each UA campus based on campus attributes. UA campuses selected their peers from this list and FY86 peer ratios were developed by the National Data Service.

Results

Expenditures as a percent of Educational and General revenues are graphed below. Black circles ● indicate FY86 UA campus values while white circles ○ indicate FY87 UA values.

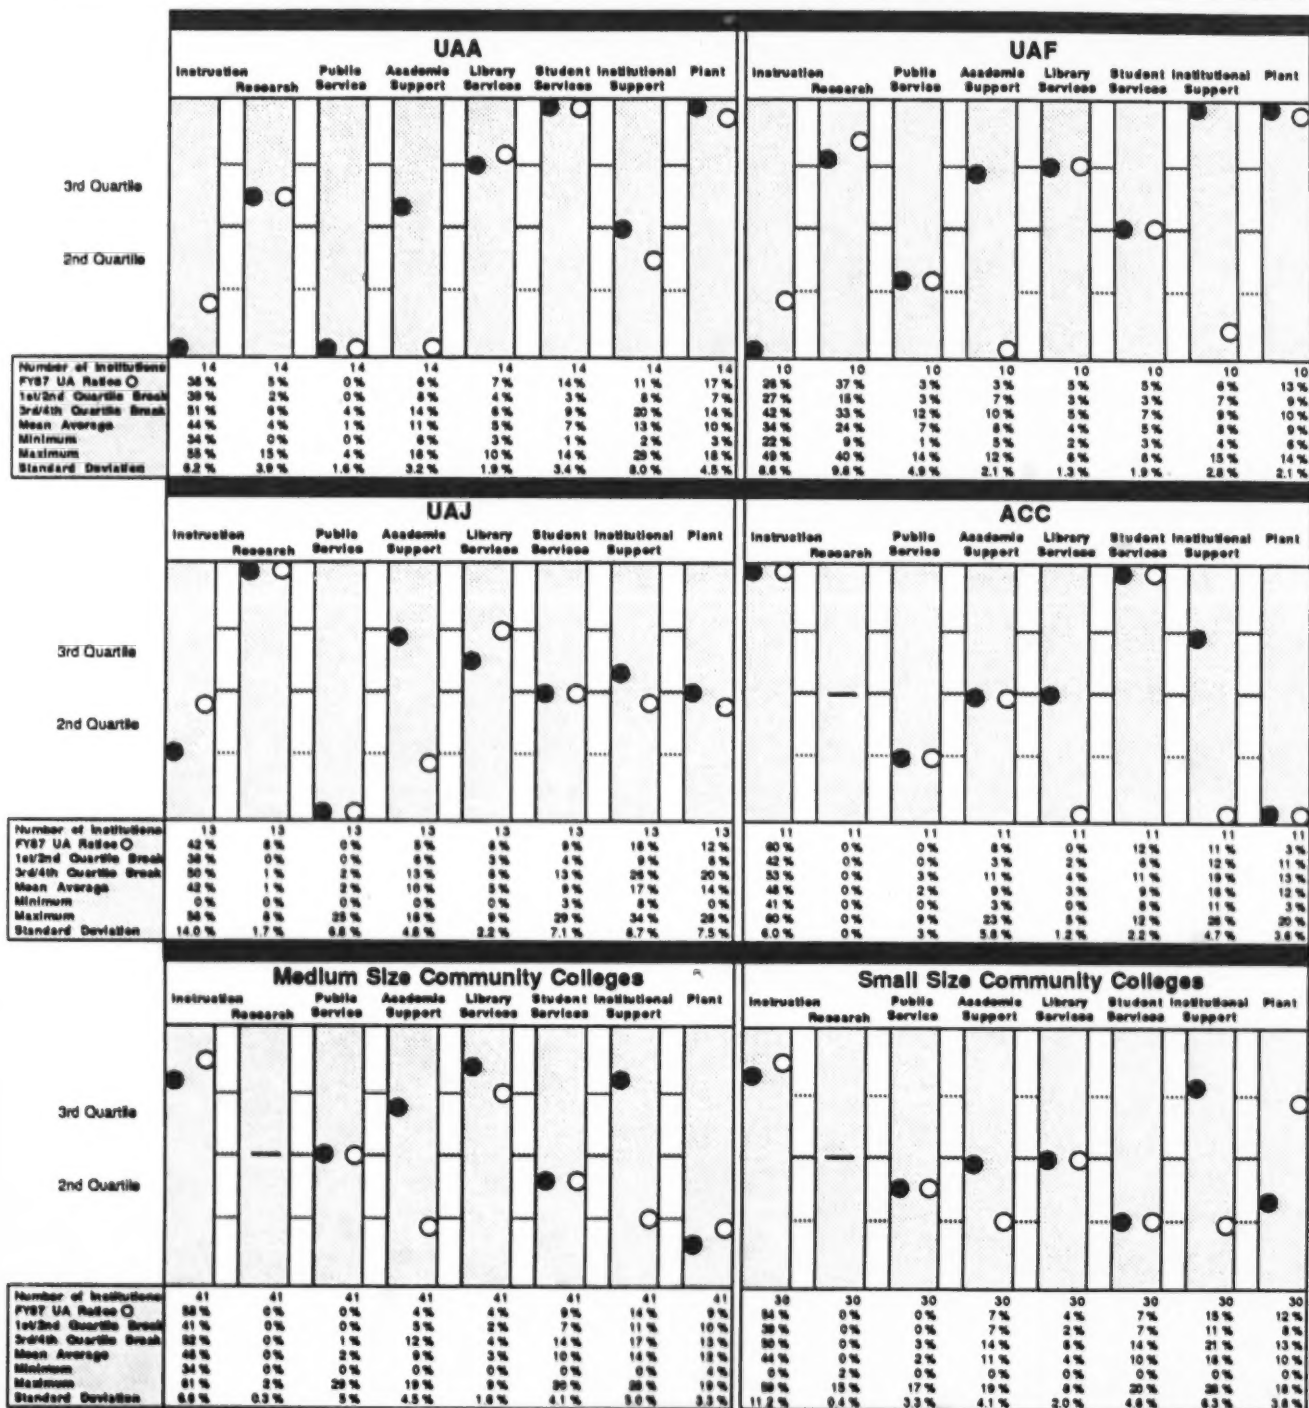

TABLE 7.2 Colorado's Faculty Allocation Model Applied to Alaska

Project Description	The President's Budget Flexibility Task Force was charged with comparing the University of Alaska with existing numerical/productivity standards in use elsewhere. It was decided to use the student faculty ratios from the Colorado Model; a faculty allocation model which uses "standardized" student faculty ratios for each discipline and student level to estimate the total number of budgeted faculty positions needed at each institution.
Methodology	Calculated UA FTE were derived from standardized Colorado Model student faculty ratios and actual FTE student data from campus FY86 course schedule master files. These were compared to the actual number of UA FTE faculty which were computed using payroll file information.
Results	A straight application of the Colorado Model produced calculated faculty full-time equivalent figures generally much lower than those which currently exist here. A major participant in the development of the model indicated that, because of the variability in applicability of the "standardized" numbers, only faculty FTE quantities of two, three times higher than the calculated model figures should be examined. Characteristics of the institution and the environment in which it operates must enter into evaluation of any comparison to a "norm." It became apparent that if a mathematical model is to be used, the normative values should be developed specifically for the University of Alaska and its units accounting for institutional/environmental characteristics.

Actual FY86 UA FTE Faculty vs Colorado Model FTE Faculty

	FTE Faculty	Colorado Model FTE Faculty	Percentage Difference

Table Definitions

FTE FACULTY For four-year institutions (UAA, UAF, UAJ) this is equal to 1 for each full-time faculty member with a primary assignment in instruction (adjusted for length of assignment), and equals 30 course credit hours taught for all other instructors. For community colleges, this equals 1 for each faculty member with a primary assignment in instruction, and 30 course credit hours taught for all other instructors.

TABLE 7.3 Regents / Planning Committee 6-Year Plan Survey

Project Description	The effort to develop the University of Alaska Six-Year Plan resulted in a draft document which organized specific ACTIONS the University should take over the next 6 years. These ACTIONS were grouped under a smaller number of OBJECTIVES, which were in turn grouped under GOALS, which finally fell under five broad planning ELEMENTS. ACTIONS in the draft plan were identified by a numerical scheme based on this roll up to ELEMENT, so that ACTION 1.3.7.5 meant that this was the fifth ACTION under the seventh OBJECTIVE under the third GOAL of the first ELEMENT. The need to reduce the large number of ACTIONS in the draft plan and identify those ACTIONS the Board of Regents and the Planning Committee felt were most important at this time resulted in the development of a ratings survey.
Methodology	A twelve page ratings survey was distributed to the Board and to the Planning Committee. For each ACTION, the mean score, standard deviation, mean score rank, and cumulative percentage were derived.
Results	Results of the survey showed which ACTIONS were generally thought of as most important and could be targeted for priority funding, and where differences existed between what the Board and Committee felt was most important. A clearer and more responsive plan became easier to accomplish. The following charts summarize survey results. ACTION identification numbers refer to those used in the March 14, 1986 Working Draft of the Six-Year Plan.

Regent/Committee Mean Composite Scores for Six-Year Plan Actions Within Element

Regent/Committee Mean Composite Scores for Six-Year Plan Actions Within Goal

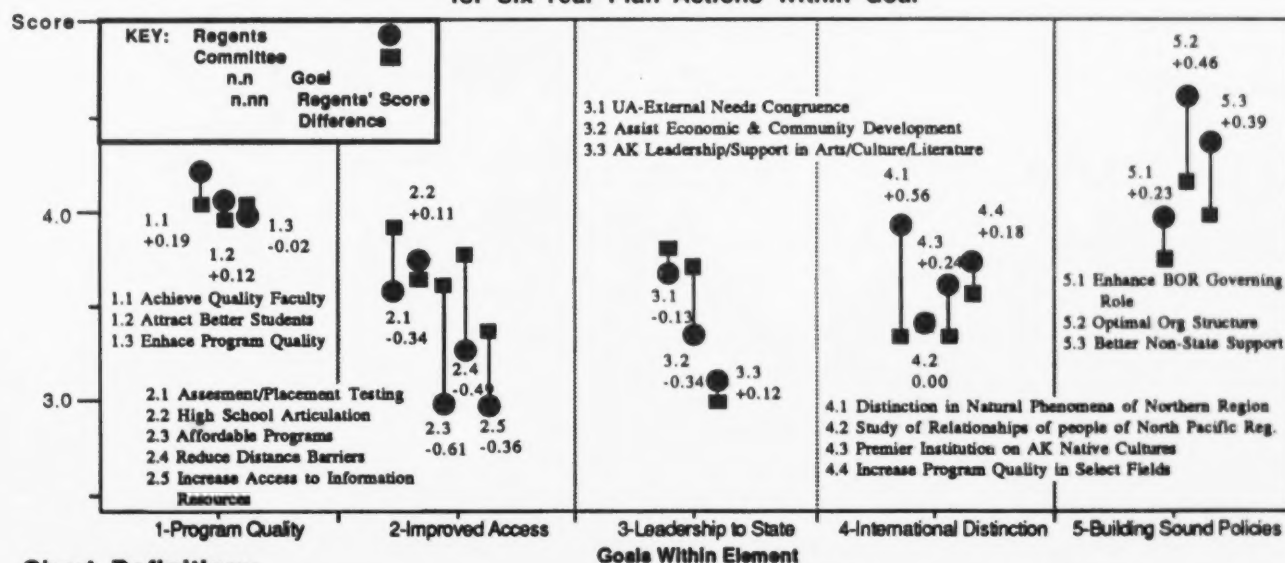

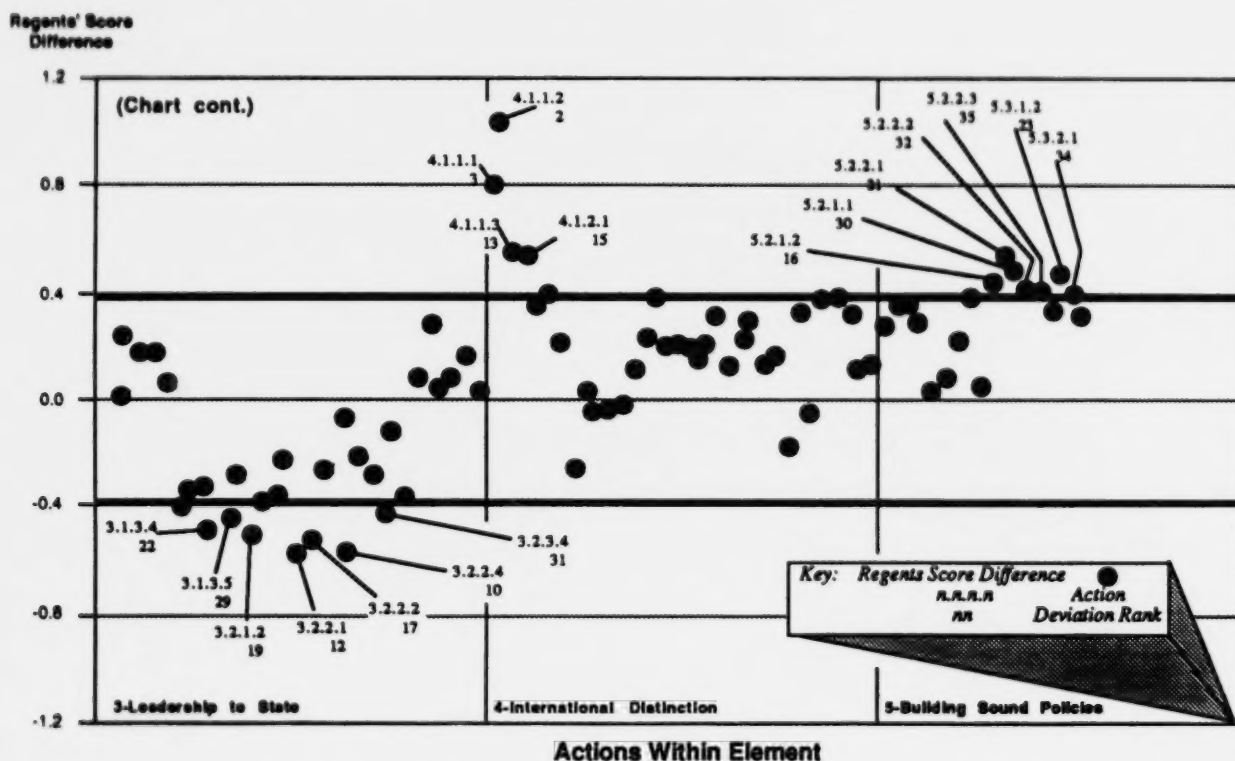

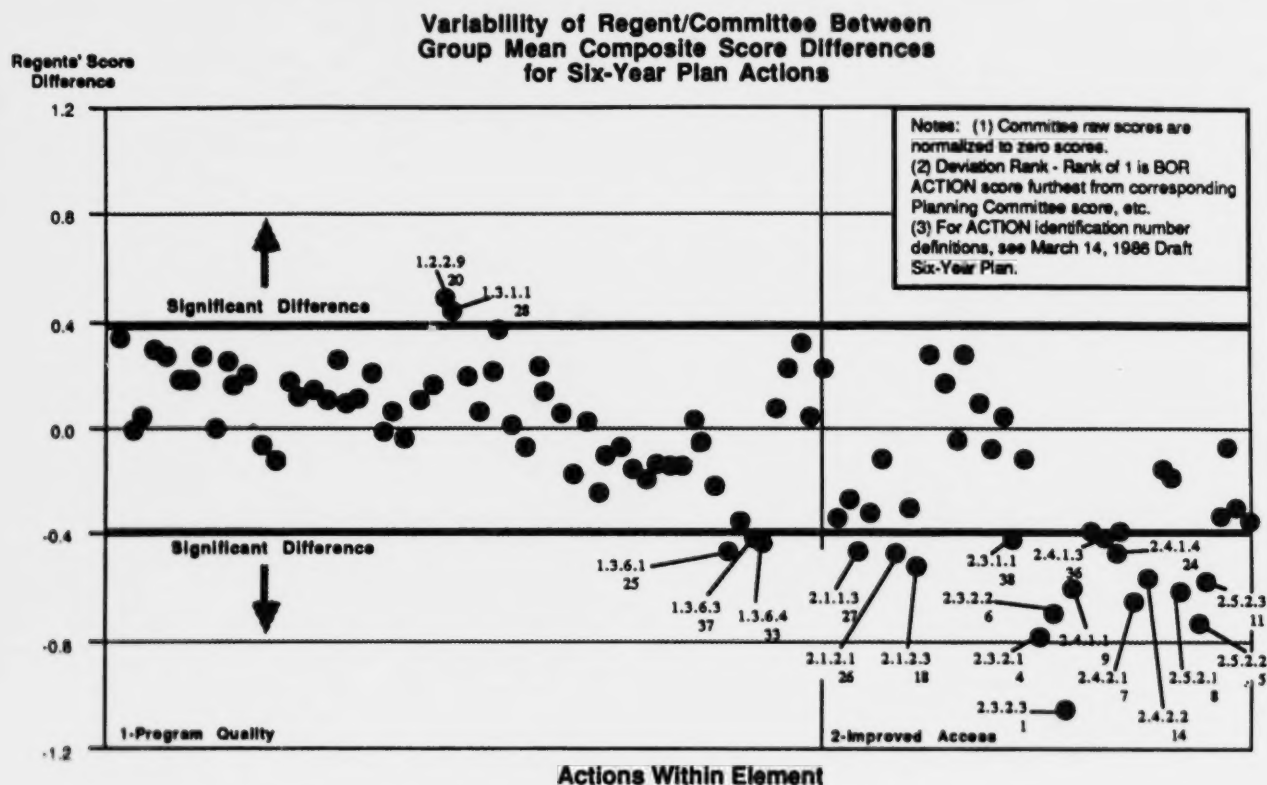

Chart Definitions

COMPOSITE SCORE	For each ACTION listed in the survey, a composite score was calculated by summing the rating of the ACTION with the ratings of the OBJECTIVE, GOAL, and ELEMENT the ACTION fell under and dividing by four. Scores, therefore, could range from a low of one to a high of five, where a score of five indicates the highest importance while lower numbers indicate lesser importance.
MEAN COMPOSITE SCORE	The mean composite score for each ACTION is calculated by summing composite scores from each survey and dividing by the number of survey respondents. The higher the score, the higher the ranking.
